

**Datasea’s Digital Technology Subsidiary Selected as
Prospective Partner for Future Projects with Subsidiary of China
Mobile**

*The Prospective Partnership with a Subsidiary of China Mobile, one of the World’s
Largest Mobile Operator, Underscores DTSS’ Achievements in 5G-AI
Communications*

Beijing, August 6, 2024 / PRNewswire / Datasea Inc. (Nasdaq: DTSS) (“Datasea” or the “Company”), a digital technology company incorporated in Nevada, engaged in innovative businesses in high-tech intelligent acoustics in the United States, and 5G-Artificial Intelligence (“AI”) multimodal communication technology in China, today announced that on July 17, 2024, the Company’s wholly-owned subsidiary, Heilongjiang Xunrui Technology Co., Ltd. (“Xunrui Technology”), was selected by China Mobile Internet Co., Ltd. (“China Mobile Internet”) as a prospective partner in its database of companies (the “Partner Database”), that may be chosen to sign specific project cooperation contracts. China Mobile Internet is a subsidiary of China Mobile, one of the world’s largest mobile operator and the largest wireless carrier in China.

According to the announcement released on July 8, 2024 by China Mobile Internet regarding choosing prospective partners for the Database, Xunrui Technology will now be able to be selected to undertake specific projects for China Mobile Internet, leveraging the development and application of Datasea’s advanced 5G-AI multimodal communication technologies. This collaboration aims to promote the joint development of communications and internet innovations, and has the potential to contribute to future revenue growth for Datasea.

Ms. Liu Zhixin, CEO of Datasea, commented, “Our selection as a prospective partner of a China Mobile core subsidiary is a major milestone in our corporate development and a confirmation of our achievements in technological innovation and market expansion. We believe that this opportunity for collaboration will provide new possibilities for growth of our existing businesses, which may enable Xunrui Technology to further broaden its market channels, enhance brand influence, and offer higher quality products and services to a wider range of customers.”

As a specialized subsidiary of China Mobile, China Mobile Internet is responsible for creating CHBN (“Customer”, “Home”, “Business” and “New” markets) innovative communication and internet products throughout China. Through its Database, China Mobile Internet selects enterprises to partner with that have project integration

capabilities, platform integration capabilities, rapid development capabilities and rapid delivery capabilities.

Xunrui Technology, Datasea's subsidiary, with its professional R&D capabilities, customer expansion capabilities, and proven performance in the 5G-AI multimodal communication technology industry, passed the rigorous review of China Mobile Internet. and officially became a member of its Partner Database. This means that Xunrui Technology will have the opportunity to collaborate with China Mobile Internet on specific projects in the future, jointly promoting the development and application of cutting-edge technologies such as 5G, AI, and multimodal communication.

Mr. Li, the head of the CHBN project at China Mobile Internet, stated, "We are very excited to establish this relationship with Datasea. Datasea's project integration capabilities, platform integration capabilities, rapid development capabilities, and rapid delivery capabilities in 5G communication and the internet have genuinely impressed us, especially its AI-based 5G multimodal platform, which has the potential to further enhance the product value, service capability, operational capability, and innovation capability of CHBN innovative products. We look forward to specific collaborations with Datasea on a number of innovative projects."

About Datasea Inc.

Datasea Inc. ("Datasea") is a leading provider of products, services, and solutions for enterprise and retail customers in its innovative industries, Acoustics and 5G-AI multimodal communication, especially focusing on ultrasonic, infrasound and directional sound technology. The Company's advanced R&D technology serves as the core infrastructure and backbone for its products. Its 5G multimodal communication segment operates on a cloud platform based on AI. Datasea leverages cutting-edge technologies, precision manufacturing in its Acoustics business, utilizing ultrasonic sterilization to combat viruses and prevent human infections, and is also developing innovations in directional sound and medical ultrasonic cosmetology. In July 2023, Datasea established a wholly-owned subsidiary, Datasea Acoustics LLC, in Delaware, in a strategic move to mark its global presence. This underlies Datasea's commitment to Acoustics hi-tech and its intent to offer leading edge acoustic products and solutions to the U.S. market.
